

**Introduction to Robotics:
Bad Robot Competition**

March 18, 2019

Presenter: Dawna Schultz, Director of In-district Initiatives, Center on Math, Science and Computer Education, Rutgers University

Registration	MUJC Members:	\$105.00
Fees:	Nonmembers with subscription:	\$105.00
	Nonmembers:	\$135.00

Robotics has become so popular that there are numerous robotics programs and kits available today. How does one decide what is best for students? What is the best way to teach students about robotics? This inservice will focus on the critical elements of robotics with projects appropriate for all grade levels. Each team will build its own robot and compete with it on the playing field.

Participants will gain knowledge and skills in:

1. learning basic electronics,
2. understanding rudimentary principles of robotics,
3. exploring design and fabrication.

All inservices are held from 9 a.m. to 3 p.m. unless otherwise noted.
Enjoy lunch on your own!
