National Autism Awareness Month | April 2021

Vaccine Clinic Answers the Call and Offers Hope

Special Saturday Clinic successfully vaccinated 100 more adults with autism as project continues to fill an important need.

In partnership with the Visiting Nurse Association of Central Jersey (VNACJ), Autism New Jersey was proud to extend their Special Needs COVID Vaccine Clinic with a special event on Saturday, March 27 that vaccinated 100 adults with autism. [Read more>>](#)

Economic Impact Payments and Social Security Benefits

Some are unsure whether they are eligible to receive the third economic impact payment. And if so, will it affect their eligibility for programs they depend on such as Medicaid?

In order to provide some clarity on this rather confusing and complicated matter, Autism New Jersey has compiled updated information to help answer these questions. [Read more>>](#)

Ambassadors Start with Respect to Reach Acceptance

Today marks the half-way point of National Autism Awareness Month. To continue to build momentum, we are recognizing the incredible dedication, spirit, and drive of our ambassadors.

Nearly 850 people have taken our pledge to make our communities a kinder place to help ensure a better future for people with autism and their families. It's not too late to get involved! [Learn more>>](#)
